

## Dubai's 1st Flight Data Course series of 2025!

**Dates:** 3 – 7 February

**Location:** General Civil Aviation Authority of Dubai,  
Ahmed Homaïd Al Tayer Auditorium

★★★★★ Khairul Mizan | Avionics Engineer Hornbill Skyways

"Regarding both the CVR and FDR courses we attended in August 2024 at the CAA Malaysian Aviation Academy, personally it means a lot to me as an Avionic Engineer. I learned everything from the basic construction of the unit up until the analysis part of the recording. This new horizon helped me to understand more about how flight recording plays a part in ensuring safety and airworthiness of helicopters, as well as in the airplane operation. I am looking forward to the next opportunity to attend more courses provided by your team at Flight Data X."

## Certificated Courses:

FDA 101 – Introduction to Flight Data Analysis  
– 3-5 Feb (3-day course)

CVA 101 – Introduction to Cockpit Voice Data Analysis  
– 6&7 Feb (2-day course)

## Registration Open Until

📅 **31 January 2025**

For pricing and
